

Looking for something Different?

Flint Images is a full service, state-of-the-art, photography studio that specializes in graduates and fashion. We offer cutting-edge, quality photographs for our clients in a fun and professional atmosphere. We still photograph one session at a time, unless you choose to book your session with a friend, and we focus on capturing your own style and personality. Relax in your private dressing room, choose the music from our satellite radio play-list, and most of all, plan on having fun!

Image Consultation

To ensure that your experience with us is as good as it can be, we strongly recommend visiting our studio before your session for a free image consultation. At that time, we will show you several other graduation shoots, make recommendations for clothing and props, and give you a tour of our studio. We recommend that at least one parent or guardian is present. Please allow approximately 1 hour.

Photo Presentation

Your photos will be presented as a slideshow in our multi-media screening room on a 5 foot display! Several creative effects will be applied, and many of our favorite images will be retouched so that you can appreciate their artistic potential. You will have an opportunity to select your favorite images, and our design consultant can help you choose your final prints that day, or you can take a preview booklet home with you for further review.

Clothing Suggestions

Not sure what to wear? Don't know which colors work best with your complexion? See the complete guide to clothing and accessories on our website:

Portrait Sessions

Each session will receive the Flint Images treatment!

When you see your presentation, many images will be retouched and otherwise enhanced, showing some of our signature creative effects. Of course you will see some B&W and sepia toned images, but you'll also see some high contrast and intense color effects, or other images treated with additional texture. Prepare for some jaw-dropping visuals!

Print Finishes

Galley Wrap: No frame necessary! Photographic emulsion is bonded to canvas and wrapped around a thick base. Just like displays at the museum!

Canvas: Wall portraits are professionally bonded to canvas and finished with artist brush strokes. This helps create the illusion of an elegant "painted" look.

Deluxe: Each portrait receives a lustre coating, enhancing the depth of color and protecting against UV rays and abrasions.

Standard: Each portrait is printed on high quality lustre paper, but receives no coating. Framing with glass is recommended.

Image Enhancement

Every pose chosen will receive image enhancement for proper prints. In addition to determining the correct crop for the pose, the image will be digitally retouched; removing small blemishes and softening lines around eyes if needed. Additional corrections, such as removing stray hairs, removing braces, or major complexion corrections can be performed and estimates will be provided upon request.

Additional poses added to any package..... \$15.00
 2 more people \$20.00

Copyright

The photographic works produced by Flint Images are copyrighted. A copyright symbol will be displayed on the back of each photograph. All photographs are protected by United States' copyright laws. Any effort to reproduce work provided by Flint Images without written consent is illegal.
